

# CLAUDIA GUERRA

## QUALITY ASSURANCE

claudiagbak@gmail.com | Leeds | Right to work in the UK | [in claudiaguerrabak](#) | [globe claudiaguerrabak.netlify.app](#)

### ABOUT

Quality Assurance Professional with 5 years of experience in manual testing, including expertise in test design, execution, defect tracking and documentation. Recently completed an intensive Web Development program, adding skills in HTML, CSS and more to QA expertise. Currently expanding skillset by independently learning automation testing. Organised and methodical, with an eye for detail, logical thinking, strong communication skills, and a solid work ethic.

### TECHNICAL SKILLS

- HTML5
- CSS3

### WORK EXPERIENCE

#### Quality Assurance Consultant at Oracle

August 2022 - April 2024

Worked in the implementation of Energy&Water products such as C2M, CCS, and CC&B. Participated in different stages of testing, such as System Testing, Regression Testing, System Integration Testing and User Acceptance Testing. My main activities consisted of the following:

- Test execution, design and planning, as well as maintaining existing test cases
- Identification, documentation, and tracking of defects using Jira
- Implementation of new projects in collaboration with software development and design teams
- Creation of training materials, templates, and simulations to accelerate new employee onboarding

#### Software Validation Tech at Intel

January 2015 - October 2017

- Manual and Automated test cases execution for Intel Graphics, focusing on display, media, and rendering components
- Identification, documentation, and tracking of defects using Jira
- Creation of comprehensive documentation for new platforms and training material on testing procedures
- Participated as point of contact for Android projects, utilising Linux environments

### EDUCATION

#### Frontend Developer

May 2024 - October 2024
