Spanish Native

CERTIFICATIONS

Oracle Cloud Infrastructure Certified Foundations Associate
2023

Oracle Utilities Customer Cloud Service Certified Implementation Professional
2022

PROFILE

Hello! I'm Claudia, a Quality Assurance Professional with 5 years of experience. I have recently completed a Web Development course, adding skills in HTML, CSS, JavaScript, React, to my expertise in software testing. I'm passionate about science and technology, and I love working in teams to create a positive work environment.

I am organised and methodical, with an eye for detail, logical thinking, strong communication skills, and a solid work ethic. I believe in doing things right, maintaining high standards, and delivering quality software every time. I'm always ready to assist my colleagues and share my knowledge to help the team succeed.

WORK EXPERIENCE

Quality Assurance Consultant   August 2022 - April 2024
Oracle
Energy & Water Global Delivery Center

I worked in the implementation of Energy&Water products such as C2M, CCS, and CC&B. My main activities consisted of the following:

♦ Test execution, test design and test planning, as well as maintaining existing test cases.
♦ Identification, documentation, and tracking of defects using tools like Jira and HP ALM.
♦ I worked on different stages of testing, including System Testing, Regression Testing, System Integration Testing and User Acceptance Testing.
♦ I implemented new projects in collaboration with software development and design teams.
♦ I created training materials, templates, and simulations to accelerate new employee onboarding.

Software Validation Tech   January 2015 - October 2017
Intel

♦ Manual and Automated test cases execution for Intel Graphics, focusing on display, media, and rendering components.
♦ Identification, documentation, and tracking of defects using Jira.
♦ I created comprehensive documentation for new platforms and training material on testing procedures.
♦ Participated as point of contact for Android projects, utilising Linux environments.
